

SPINNER® BLADE ION™

with Power/Watts

Model 7220

Strain-Gauge Technology

Self Powering Flywheel Generator

Watts Display

- Integrated power (watts) system utilizing strain gauge technology that accurately measures the riders actual power output
- Environmentally friendly self powering flywheel generator reduces consumption and replacement of batteries and allows "always on" backlighting for computer display
- Operational display with power, time, cadence, heart rate, distance and kilojoules
- Summary display with peak power, average power, time, average heart rate, average cadence, total distance and total calories
- Patent pending taper fit bottom bracket and pedal system for increased strength and reliability
- Custom dual-sided SPD® pedals featuring a larger pedal body and both SPD and toe cage design
- Non-rusting urethane/over-molded leveling feet for easy leveling adjustment
- Accommodates riders 4' 10" (147 cm) to 6' 10" (208 cm) with a maximum recommended weight capacity of 350 lbs (159 kg)
